CONTEXT / LOCATION

The surrounding landscape has undergone profound transformations in recent decades. This area historically depressed from an economic point of view due to low rainfall, has become one of the most fertile territories in Europe. Over the past 35 years thanks to intensive agriculture carried out through greenhouses, 40 thousand hectares of "invernadero". Irrigation, in the absence of water, takes place with the "drop by drop" system. To further reduce evaporation, the fertile land is covered with sand. Most of the fruit and vegetables that arrive on the tables of all of Europe are produced here and 11% of the population is involved in agricultural activities and additional related activities. In recent years, organic farming and integrated production have established themselves. A place of wonders, a paradise, where the earth is exploited intensively, but with excellent results.

customized study paths for high-skill students

The screenshot displays the Séneca web application interface. At the top, the Séneca logo is on the left, and user information for 'Segura Rumi, Carmen María (Orientación)' with ID '04700132 - I.E.S. - Campos ...' is on the right. The main heading is 'RELACIÓN DE ALUMNADO CON NECESIDADES ESPECÍFICAS DE APOYO EDUCATIVO'. Below this, there are three filter sections: 'Alumnado matriculado en:' with a dropdown set to '2021-2022', 'Que tiene una NEAE del tipo:' with a dropdown set to 'Altas Capacidades Intelectuales', and 'Con vigencia:' with a dropdown set to 'Actual'. A fourth filter, 'De cada alumno/a presentado/a, mostrar las NEAE/Atenciones:', has a dropdown set to 'Vigentes actualmente'. A 'Refrescar' button is located to the right of the filters. On the left side, a sidebar menu includes 'Alumnado', 'Psicopedagógica', 'Dictámenes de Escolarización', 'Organización de la respuesta educativa', 'Otros Informes', 'Relación de alumnado con NEAE', and 'Alumnado escolarizado en'. At the bottom, a disclaimer states: 'Esta determinación de NEAE no debe entenderse como un diagnóstico o juicio clínico por parte del profesional de la orientación, sino como la identificación de aquellas necesidades que requieren atención educativa diferente a la ordinaria, según los criterios establecidos por esta Consejería.'

MY MOBILITY EXPERIENCE

I did my Job Shadowing at the IES Campos de Nijar in the first week of May, where I was able to expand my knowledge of the school, its professors, students and teaching methodologies.

ROBOTICS LABORATORY

the Robotics Laboratory is arranged in such a way to allow active control by the teacher, but at the same time stimulate sharing and active participation of students. It is a very inclusive, friendly and casual space in which students can create using the latest technological tools, basic equipment and computers. The teaching material used is provided by Lego

VISITING THE EXHIBITION

One of the most interesting experiences of my mobility was visiting, together with teachers and students the exhibition “II Feria Aula Almería 2022”, organized by the high schools of the Almería area. Participation in the exhibition helped me to get to know the high schools in the area by knowing their educational proposals
